Anchor is a fixed benefit health coverage. Benefits are not intended to cover all medical expenses. This is not a Medicare supplement policy.

\(^1\) Resource Based Relative Value Scale (RBRVS) is the physician payment system used by the Centers for Medicare & Medicaid (CMS) and most other payers. The RBRVS is based on the principle that payments for physician services should vary with the resource costs for providing those services and is intended to improve and stabilize the payment system while providing physicians an avenue to continuously improve it.

In LA, MI and NM, and OH, RBRVS is not available. A fixed amount is paid for surgery (inpatient or outpatient) based on the plan type. Value pays $1,000, Select pays $1,250 and Maximum pays $1,500 in LA, MI, and NM. In OH, Value pays $1,000, Select pays $1,500 and Maximum pays $2,000.

\(^2\) In OH, Anesthesia and Assistant Surgeon benefits pay a fixed amount of $250 on Value, $375 on Select, and $500 on Maximum plans.

\(^3\) In GA, KS, and PA - 1 per calendar year for injury and 1 per calendar year for sickness.

\(^4\) In KS, 45 day maximum per calendar year.

Fixed Benefit Medical Scenario

Meet Ryan

Six months ago, Ryan purchased an Anchor Select fixed benefit medical plan. He was looking for a plan that would cover common medical care such as doctor visits and prescriptions, but also to give him coverage in the case of an unfortunate circumstance. Recently, Ryan was dining on the outdoor patio of his home. He stepped away from the table for a moment and slipped on a wet spot of the deck. Ryan noticed a sharp pain in his left knee shortly after the fall. Remembering that his Anchor plan included telemedicine, he decided to contact a medical doctor via video chat. He was advised to seek medical attention right away. He immediately pulled up the Point Health mobile application and reached a Patient Advocate. Through the help of Point Health patient advocacy services, he was able to receive a cost estimate for a local facility. Hesitant to drive, he called for an ambulance. Shortly after, Ryan was escorted to the hospital.

Here's a snapshot of the benefits received through his Anchor Select plan for a torn ACL

$75 X-Ray Benefit
