PRIME Corporate Services was founded to assist businesses in gaining increased access to resources by helping to strategically establish entity structures, maximize tax deductions, establish business credit, and formulate estate plans. We don't lean on one-size-fits-all strategies, but rather take a customized approach to evaluating the needs of each individual business to create lasting, scalable strategies that really work.

## Supporting Entrepreneurs Throughout Their Journey

In order for you to reach your goals, you need to be successful at each stage of your journey. In order for you to be successful, you need strong legal and financial resources illuminating your path. PRIME's core services are designed to help entrepreneurs build a strong foundation, helping protect your assets and minimize your taxes.

### Entity Formation

You deserve to get the most out of your business investments, and that means choosing the right business structure. The wrong choice can affect tax benefits, financial liability, and your ability to secure funding. We'll help you make smart choices as you set the foundation for your financial future.

### Business Credit Development

With a legally formed business entity comes the ability to establish business credit, which allows you to fund your business without using personal credit and funds. With a great business credit score, you can access large-limit loans and credit cards with low interest rates. Together, we'll make sure your business credit profile shines.

### Tax Strategy & Preparation

Maximizing your deductions is often the difference between saving thousands of dollars every year and paying more than your share to Uncle Sam. Don't give the government any more dollars than you have to. Instead, get our help with business and personal tax filings. Your bottom line will thank us.

### Estate Planning

Estate planning is not just for the "rich." You've spent a lifetime painting your personal financial picture. A firmer future means your loved ones benefit more from a life of hard work. We have a team of attorneys that can help you protect your legacy, and help your benefactors avoid costly probate battles.
