Epic Base Plans Feature Reference Based Pricing*

Reference Based Pricing*

Reference based pricing occurs when a provider submits a claim to the plan administrator. The administrator then pays the provider based on Medicare allowable amounts. Pivot Health reimburses medical providers based on a percentage above Medicare allowable amounts, paying up to 150% of Medicare allowable amount for medical facilities and up to 125% of Medicare allowable amount for medical professional services and supplies.

All Provider Access

With All Provider Access plans, members choose providers that best fit their needs. There is simply one benefit level for all providers, differing from a PPO plan where there are separate in-network and out-of-network benefits.

No Balance Bill

If a member is presented with unexpected charges on covered benefits for which the member is not liable, due to cost share or limitations, the Plan's Claim Administrator is authorized to resolve the balance bill on their behalf. The member is required to notify Plan's Claim Administrator if an unexpected charge is incurred

* The Pivot Health reference based pricing option is not affiliated with the Cigna PPO network.
